To whom it may concern

Reference for Pollock & Sons Crane Hire Limited

Allied Industrial Engineering has used Pollock & Sons Crane Hire Limited since May 2009 when it took over the business from NZ Crane Hire.

We are an ISO 9001:2008 certified company, and have Health and Safety Systems that comply with Tertiary Level of ACC's Workplace Safety Management Practices programme. This means we are very selective about the sub-contractors we use.

Pollock & Sons Crane Hire has provided us and our customers a very good, professional crane hire service, and we have found them to be competent in carrying out the lifting of many large industrial items.

We would have no hesitation in recommending Pollock & Sons Crane Hire Limited to other companies.

Mark Lovegrove
GENERAL MANAGER
