To Whom It May Concern

POLLOCK & SONS

Independent Stevedoring Ltd is operating a very progressive business within the Port of Tauranga and has been instrumental in lifting productivity rates to the industry .This has been accomplished jointly by new methods, ideas and employment initiatives. However, this is only possible with the working relationships we build with our staff & service providers.

Pollock & Sons is one of these key service providers that we so rely and depend upon.

Pollock & Sons are an excellent team, highly innovative and offer a top level of quality in their work. They have a sense of pride in their operation that is apparent in the presentation of their equipment and staff. This translates on the job to service excellence.

When working alongside them, they display an absolute commitment to the observance of a strict health and safety culture which comes from the high standards and training that they set.

We are proud to be associated with Pollock & Sons and totally recommend them when productivity, quality of service, safety and innovation are a prerequisite.

Yours faithfully

Malcolm Fleury

Operations Manager/Director
