Pollock & Sons Crane Hire Limited

PO Box 174
Tauranga
New Zealand

To whom it may concern,

Re: Testimonial

Rocktec recently needed to lift and transport eight large (25–65T *overdimension*) items of machinery from our Matamata yard to the Port of Tauranga.

We consulted Pollock & Sons at the early stages of the job and championed them to organise the entire operation.

I was more than happy with the way the job went. Pollock & Sons were great to deal with and conducted the job in a very professional manner. Their gear was well presented and their crew was more than competent.

Rocktec have a high standard of safety and demand our subcontractors meet this while on our premises, the Pollock & Sons team exceeded our safety expectations. Not everyone on site was experienced in crane operations so Pollock & Sons went the extra mile to ensure that everyone on site was aware of potential risks involved so the job could be conducted in a safe manner.

I would have absolutely no hesitation in recommending Pollock & Sons and look forward to dealing with them in the future.

Yours sincerely,

Mike Bellamy
Project Manager
