Gear Welding Services have engaged Pollock & Sons Crane Hire Ltd for a number of projects in recent years.

They continually prove themselves as a safety leader in the field of crane hire and always show a high calibre of professionalism and expertise in all aspects of their work. The quality of their operators is well above standard and their work ethics never waiver regardless of the task at hand.

I have no hesitation in recommending Pollock & Sons Crane Hire Ltd to anyone wishing to utilise a crane hire company who offer a high level of service, knowledge, expertise and safety.
