

16 November 2011

Humes use Pollock and Sons Crane Hire Ltd on most of our cattle underpasses and large culvert placement projects.

We have found them to not only be honest and up front but are a company with great work ethics and an easy to deal with nature.

This means a lot to us and our clients when dealing with installation time frames and it is great to work with a company whose operators can accept that at times there can be complications with a particular install but are happy to work with us to get the job done so that everyone wins.

We have used Pollock and Sons Cranes Hire Ltd now for the past three years and we are defiantly happy to continue to do so.

I have no hesitation in recommending Pollock and Sons Crane Hire Ltd if you are after a professional company with great staff/operators and great pricing.

Regards

Dave Casey
Rural Territory Manager
Humes Pipeline Systems.
